I am a passionate Software Developer with expertise in developing mobile responsive web applications. I have a keen interest in continually learn and improve my skills in creating high-quality web applications and writing clean code. My recent experience is in Django which is an open source web framework of Python programming language and django REST Framework. I am a well organized and structured person who loves taking on new challenges. In my spare time I enjoy writing code, and learning new technologies and programming languages. I tend to share my code via my own github repository which has a list of all projects I have worked on.
